

DATASTREAM

CYBER INSURANCE

DataStream Insurance is a North American based insurance broker specializing in Cyber Insurance. We use proprietary data models to assess the true cyber risk of small and medium sized businesses so the quotes we provide are specific to each business. We partner with local IT providers who can implement our suggestions on how to further reduce risk, which can lead to more coverage at lower premiums.

What We Offer:

FREE CYBER INSURANCE RISK ASSESSMENT (CIRA) find out your true measure of cyber risk and what can be done to improve it

FREE 24/7 HOTLINE the moment you suspect a breach, call our hotline to immediately be put under attorney-client privilege with a top breach coach firm

UNIVERSAL CYBER INSURANCE APPLICATION

we will shop one application to more than 30 carriers in search of the right policy for your business

INCIDENT RESPONSE PLAN (IRP)

once we bind a policy, our team will assist you with the development of an IRP

COMPARATIVE QUOTE MATRIX an outline of policy quotes from several carriers with the differences highlighted and recommendations for the best match

FREE TECHNOLOGY ASSESSMENT once we bind a policy we will do an 'audit' of your cyber posture to keep on file, which will expedite claim processing and payments later

FREE TABLETOP TRAININGS to prepare your team with action plans for possible breaches

Next Steps:

Contact your IT Consultant (MSP, MSSP) and have them introduce you to us!

We'll make recommendations on tools that will increase your cyber posture and help you complete the universal application

We return comparative quotes to you with differences highlighted and clear recommendations

Protection.
Partnership.
Peace of Mind.
